

JOB VACANCY ANNOUNCEMENT

About GAH Ltd

Gabiro Agribusiness Hub Ltd (GAH Ltd) is a flagship agribusiness enterprise established through a strategic partnership between the Government of Rwanda and NETAFIM Ltd, a global leader in precision irrigation solutions. Located in Nyagatare District, GAH Ltd is at the forefront of transforming Rwanda's agricultural sector through large-scale irrigated farming, modern agribusiness infrastructure, and climate-smart agriculture.

The Hub was established to drive agricultural commercialization, enhance food security, promote technology-driven farming, and attract private sector investment into high-value agriculture. Through its integrated irrigation infrastructure and modern farming ecosystem, GAH Ltd aims to position Rwanda as a regional model for sustainable and productive agribusiness development.

As the organization continues to expand its farming operations, GAH Ltd is seeking a dynamic, innovative, and results-oriented Demo Agronomist to support crop production planning, field management, agronomic practices, and productivity improvement within the Demo Farm.

About the Position

Job Title: Pumping Station Operator

Department: Infrastructure management and maintenance services.

Reports to: Electromechanical Chief engineer

Duty Station: Pumping Station(s) within the Irrigation Scheme

Number of positions: 6

1. Job Purpose

To operate, monitor, and maintain pumping equipment and related systems at irrigation stations to ensure efficient, safe, and continuous water supply to farms and investors. The Pump Operator ensures optimal pump performance, reports faults promptly, and supports preventive and corrective maintenance activities

2. Key Responsibilities

- Operate and monitor pumps, valves, control panels, and related electrical/mechanical systems.
- Start, stop, and adjust pumping operations according to irrigation schedules and supervisor instructions.
- Record operating parameters such as flow rate, pressure, voltage, current, and running hours in daily logs.
- Check oil levels, cooling systems, bearings, seals, and vibration levels for abnormalities.
- Detect and report leaks, unusual noise, overheating, or power fluctuations immediately.
- Assist technicians during maintenance, repair, and troubleshooting activities.
- Maintain cleanliness and safety around pumping units, control rooms, and valve chambers.
- Follow standard operating procedures (SOPs) and safety protocols at all times.

- Support power and water consumption monitoring to ensure efficient energy use.
- Participate in regular inspections, preventive maintenance, and shift handovers.

3. Qualifications and Experience

- Technical Diploma (A2) or Advanced diploma (A1) in Electricity, Electromechanics or plumbing
- Minimum 3 years of experience for Advanced diploma (A1) and 5 years for Technical diploma (A2) in operating water pumps, irrigation systems, or industrial utilities.
- Having a valid driving license **category A** is mandatory
- Knowledge of electrical controls, motor protection, and VFD operation is an added advantage.
- Ability to interpret gauges, meters, and basic engineering drawings.
- Physically fit and willing to work shifts, weekends, and outdoors.

4. Key Skills and Competencies

- Strong attention to detail and safety awareness.
- Basic troubleshooting and mechanical aptitude.
- Good communication and teamwork skills.
- Record keeping and reporting discipline.
- Understanding of irrigation systems and water management principles.

5. Working Conditions

- Field-based role at pumping stations and reservoirs.
- Rotational shifts (day/night) and standby duties during irrigation seasons.
- Exposure to noise, water, heat, and electrical equipment (PPE is mandatory).

How to Apply

Interested candidates should submit the following documents compiled into a single PDF file:

- Application letter addressed to the CEO of Gabiرو Agribusiness Hub Ltd;
- Copy of National ID;
- Copy of academic diploma certificate;
- Updated Curriculum Vitae (CV) including three referees and their contact details;
- Proof of relevant work experience.

Applications should be sent to: recruitment@gah.rw

Deadline for submission: 15th July 2026 at 5:00 PM

Done on: 30 June 2026

Aloysius NGARAMBE
Chief Executive Officer
Gabiرو Agribusiness Hub Ltd
