ABOUT WELLSPRING

Wellspring believes every child deserves an education that nurtures their full vibrant potential, and that children thrive when the whole school community rallies together to nurture and educate their children.

OUR DREAM

A compassionate, creative, and courageous generation, shaping a vibrant and peaceful future.

OUR PATH

We equip school communities to nurture children's character, intellect, and wellbeing — helping children in Rwanda and East Africa to thrive.

Wellspring is at an exciting and visionary stage in its journey. Established as a Canadian charitable organization in 2004 and registered as an international NGO in Rwanda since 2008, Wellspring has over 20 years of credible experience supporting children's education through the provision of training and coaching for teachers, leaders, parents, community members and teacher trainers across Rwanda. As an integrated global team with leadership now based in Rwanda, we are setting ourselves on course to establish Wellspring as a thriving and sought after hub of educational expertise and professional development opportunities for educators in Rwanda and across East Africa, focused on seeing children thrive with skills and knowledge for their wellbeing, character, resilience.

Our new strategic plan and vision sees us craft a much more vibrant brand, broaden our community of partners, and increase revenue through more personal & relational fundraising, corporate giving, a strengthened grant program, establish global and local educational connections, and rallying communities together in support of children's education. We are in exciting times, and this role is a key part of the team that will craft the way ahead.
